

MEANDROS

MEANDROS

www.meandros-sub.com

Το κάλεσμα της θάλασσας σε ένα ταξίδι αναζήτησης μεγάλων εμπειριών και συγκινήσεων το ένοιωσα μόλις από τα πρώτα παιδικά μου χρόνια. Μεγάλωσα σε ένα σπίτι στο Πήλιο, που το έβρεχε το κύμα και το έλουζε η αύρα της θάλασσας. Ο παππούς μου καπετάν Αποστόλης με ανέβασε στο καΐκι του δείχνοντας μου την μαγευτική μεγαλοπρέπεια της θάλασσας και τα δώρα της.

Αυτή η γαλουχημένη αγάπη για την θάλασσα, οι βαθιά χαραγμένες στην μνήμη ανεξίτηλες εικόνες, εμπειρίες και συγκινήσεις της παιδικής μου ηλικίας ήταν τόσο έντονες που για μένα ήταν αυτονόητο πως θα αφιέρωνα στο μέλλον τον εαυτό μου σε αυτό το κάλεσμα. Το υποβρύχιο ψάρεμα με ψαροτούφεκο στάθηκε ως αφορμή και αιτία για να το κάνω αυτό. Πολύ πριν κυκλοφορήσουν στην αγορά τα πρώτα προϊόντα, σαν μηχανολόγος και άτομο που βρίσκεται σε συνεχή αναζήτηση και δεν εφησυχάζει, ο ατομικός μου εξοπλισμός άρχισε να “πειράζεται” και να δέχεται ασυνήθιστες μετατροπές, βελτιώσεις και τροποποιήσεις, να δοκιμάζεται μεθοδικά με υπομονή και επιμονή, εξαντλητικά και μακρόχρονα χωρίς να κάνω εκπτώσεις σε θέματα όπως η ευχρηστία, η καινοτομία, η ποιότητα λειτουργίας & κατασκευής.

Η συνεχή ερευνα και μελέτη πάνω σε νέες καινοτόμες ιδέες σε συνδυασμό με την τεχνολογία και την τεχνογνωσία τελικά έφεραν νέα καινοτόμα, ποιοτικά, αξιόπιστα και άριστα λειτουργικά προϊόντα. Οι επεμβάσεις αυτές στον εξοπλισμό επεκτάθηκαν αρχικά σε κύκλο στενών φίλων που ολοένα μεγάλωνε μέχρι που το 2008 έκαναν επίσημα πια την εμφάνιση τους στην ελληνική αγορά πρωτοποριακά προϊόντα με καινοτομίες στη χρήση, το σχεδιασμό, τη συναρμογή και τη λειτουργία, όπως και το μοναδικό και πρωτοποριακό μουλινέ MITOS που έγινε και παραμένει πρότυπο μελέτης, θαυμασμού και σχεδιασμού. Επίσης, ως πρωτοπόροι τολμήσαμε και κυκλοφορήσαμε θερμοπλαστικές λαβές άλλων brand όπως DEMKA, CRESSI, PICASSO, ROB ALLEN, BEUCHAT..., after market ανεστραμμένους μηχανισμούς σκανδάλης με το καινοτόμο σύστημα λειτουργίας ωστήριων που καταλύουν κάθε χρηστικό και λειτουργικό θέμα σχετικά με τον μηχανισμό. Πολύ σύντομα τα προϊόντα MEANDROS έγιναν δημοφιλή, απέκτησαν φανατικούς χρήστες σε ελληνική, αλλά και διεθνή αγορά και πλέον είναι επιλογή όχι μόνο απαιτητικών κυνηγών αλλά και καταξιωμένων αθλητών και πρωταθλητών της υποβρύχιας αλιείας.

Με νέες πρωτοποριακές ιδέες στον σχεδιασμό, την καινοτομία στην λειτουργία, στην συναρμογή, στην κατασκευή, στην παραγωγή, αλλά και εμμονή στην ποιότητα δημιουργήσαμε νέες τάσεις και απαιτήσεις στην αγορά. Σε κάθε χρήστη το όνομα MEANDROS είναι συνώνυμο ποιότητας, πρωτοπορίας και καινοτομίας. Πλέον κάποιες εταιρείες μας μιμούνται, άλλοι μας αντιγράφουν ... Εμείς απλά συνεχίζουμε να καινοτομούμε και να πρωτοπορούμε!!! Επιλέγεις MEANDROS ή αλλιώς μια κακή απομίμηση...

"The result is a wide range of products for free diving and for spear fishing which results after exhausting virtual situations as well as lab testing which cover and satisfy the needs of a simple diver to the most demanding hunter".

The company specialises in the study, improvement, construction of specialised products for spear fishing and for free diving. Inspirer and founder of these products is Peter Koutsogiorgos, with 25 years of knowledge and experience in the field of construction of deep sea fishing. Constant research on new advanced prototype ideas as well as search and study in cooperation with technology and techknowledge have as a result the existence of newfound, useful and especially reliable products without allowances to demands of general cost and construction.

Production of the advanced design the reel MITOS which is a prototype of study and admiration was introduced on the market. Simultaneously, a first for the worldwide market, we give the possibility even to the most demanding spear fisherman to be able to replace easily, quickly and simply the factory manufactured mechanism from spear fishing companies with a thermoplastic handle type DEMKA, PATHOS, CRESSI, PICASSO, with a reverse trigger mechanism which is designed for a longer period of shooting and ballistic performance which thrusts in order to center the rod when it enters the nest of the mechanism and which at the same time literally solves the problem of good and useful operation of the horizontal line release which is in front of the trigger and side of the handle.

Also, prevalent, operational problems such as sensitivity, durability, user friendly, shooting image, longevity don't affect deep sea fishing anymore. Since then, the products MEANDROS is the choice of demanding hunters, athletes and professional athletes of spear fishing. Either it's a MEANDROS or it's an bad imitation...
